About us

Bana - raz

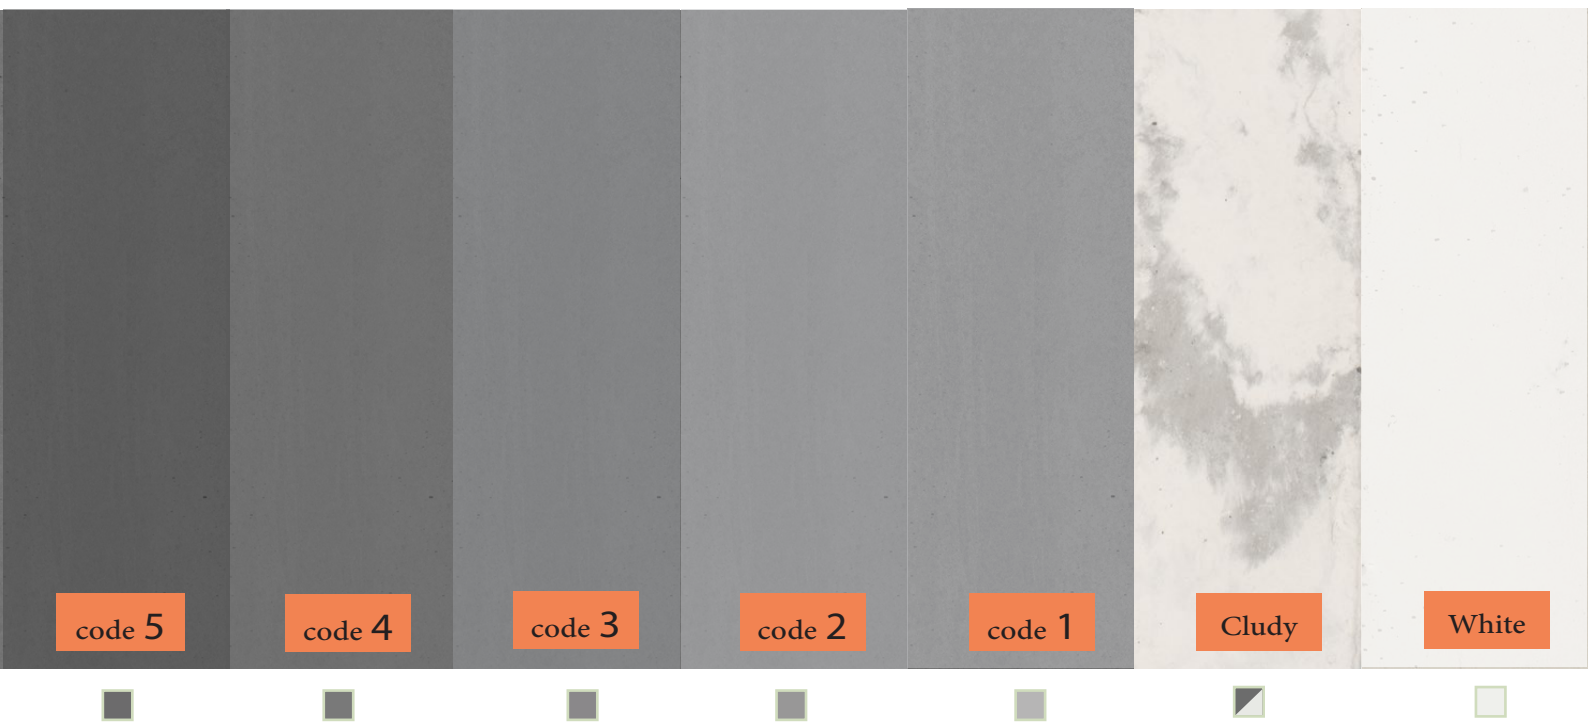

The Bana Raz Company, with a clear vision towards the production and supply of authentic and sustainable materials, began its activities in 2015. Bana Raz Company takes pride in being the first producer of concrete exposé and fire-resistant bricks in the southern region of the country.

Among the company's primary goals, three general objectives can be highlighted:

Creating direct and indirect employment opportunities by utilizing the skills and potential of young and experienced workforce.

Achieving self-sufficiency in the production of concrete products in the southern region of Iran.

Exporting these products to neighboring countries to compete with similar foreign products.

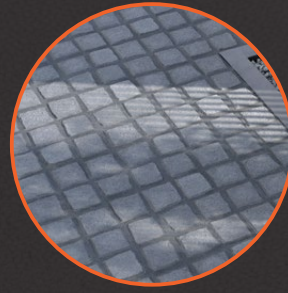

Quality of color

BRICKS

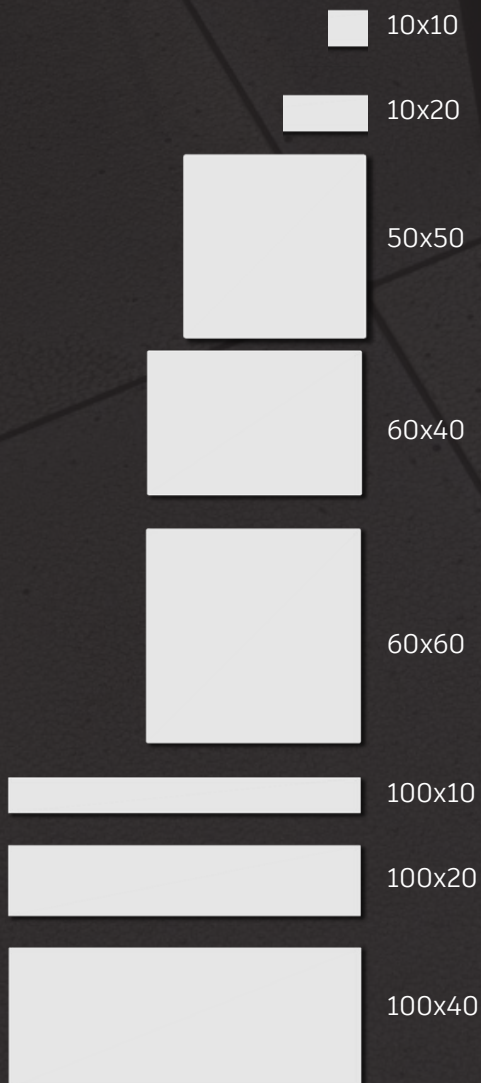

Bana Raz, as part of its commitment to producing authentic concrete products, offers a default range of seven primary colors. Additionally, custom colors can be ordered based on the available market colors in the country.

The characteristics of concrete flooring

- High compressive strength
- Suitable friction coefficient
- Stability in various climates
- Diverse installation methods
- Variety in dimensions and colors
- Color customization
- Applicable for various spaces
- Modern and up-to-date

Flooring

Flooring products dimension

In addition to our custom flooring products, other offerings are also suitable for practical flooring applications due to their high compressive strength, appropriate thickness, durability, and long-lasting color and form retention.

Approach

Bana Raz Company is striving to produce and introduce a new and up-to-date generation of building products called "Reinforced Lightweight Concrete." With its unique nature, it aims to address the weaknesses of previous generations while emphasizing the strengths and potential of this modern product.

Bana Raz, with its utmost effort, seeks to foster creativity and deliver acceptable quality in its products, following a modern approach while staying true to architectural principles. By doing so, it can become a valuable and effective contributor to this challenging yet rewarding path. This Iranian product is a testament to art and innovation in Iran, particularly in Shiraz.
